A STORY OF PASSION

25 years ago a young student of engineering - with a vibrant passion for music - felt disappointed with how LP's sounded on his system, and decided to design his very own first turntable. At the time, everyone thought he was just a dreamer.
The student was Maurizio Aterini and that turntable was the beginning of a long and exciting research path. A path focused on finding the perfect synergy between components, and on crafting a complete chain of audio equipment able of delivering a rich, signature sound.
After more than 10 years spent developing designs for other top brands as an OEM company, Maurizio founded Gold Note in 2012. And today, he is the CEO of an enterprise present in more than 50 countries, leading his team with the same enthusiasm, determination and passion that has brought him here.

Every time we design, engineer and craft our products, we skillfully combine tradition and innovation. This seemingly contradictory concept has its roots in our very own cultural identity, in our Italian heritage. Craftsmanship, creativity, know-how, and the sense of beauty have always happily coexisted. The products we create truly reflect all of this, what we are and what we love. This is simply our way of life.
The Gold Note factory is situated among the Chianti hills, surrounded by vineyards and olive trees. A serene and inspiring environment that is our daily source of inspiration. Such special land on one hand allows us to continue learning from its Master craftsmen and on the other gives us the peacefulness to focus on the smallest details when we design highly technical products. And that's how we achieve the perfect sound.

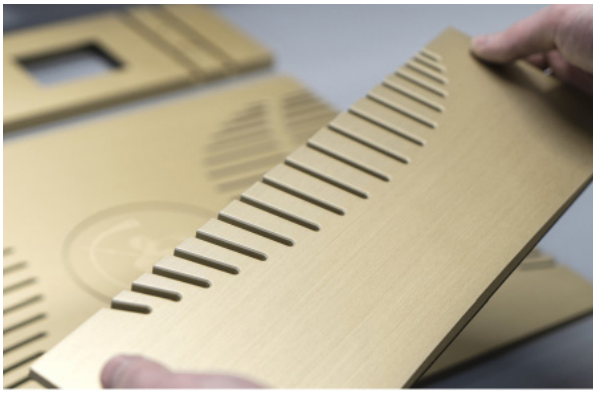

MADE IN ITALY

Every project begins in the R&D lab where our engineers develop innovative solutions to unlock better audio quality. The engineers work hand in hand with our talented designer, Stefano Bonifazi, who is tasked to choose the best materials and geometry - a challenge he will solve thanks to his unique ability to enhance the performance of each product by merging extreme rigidity, optimal cooling, vibration damping and timeless beauty.
Every component in our devices is designed in-house with the latest generation software, including the mechanical chassis which will undergo virtual computerised testing and rapid prototyping to reach perfection. From an idea, the prototype will finally emerge: it will undergo thorough stress testing and detailed measuring to ensure that it delivers the standard of quality we aim for. This is the most important stage, where lab measures are matched with listening tests. All to design and handcraft equipment that brings to your home our unmatched Italian Sound.

MEDITERRANEO X

Turntable

Inspired by our most iconic turntable, Mediterraneo X celebrates its ancestor through an unprecedented mix of technologies, innovative features, and a design created to achieve the highest performance: it's our first turntable ever with a high mass platter, made of Aluminium and POM platter and a 20mm thick solid machined aluminium plinth joining massive hardwood finely machined and 3mm stainless steel platform to increase structure rigidity. An innovative and easy-to-use touchscreen display allows regulating the motor torque controlling the power transmission to enable music genre perfect adapting and check the cartridge timer, designer to track playing time for up to 3 cartridges. Besides Mediterraneo X features high-quality RCA connectors to enjoy the favourite interconnect cables.

Finishes	Gold Leaf, Italian walnut hardwood

- Ultra-precise synchronous custom-torque 12V motor
- 33/45 electronic speed control with fine speed adjustments
- 45mm massive solid aluminium and POM platter (7Kg)
- High-damping design precisely engineered
- TFT colour display with touchscreen interface
- Aluminium, stainless steel, and hardwood walnut plinth
- Variable torque with easy adjustments
- Cartridge timer to track playing time
- Rigid turntable design

MEDITERRANEO

Turntable

Inspired by our Italian heritage, the Mediterraneo turntable combines beauty and technical perfection into a unique instrument for musical pleasure. It is our own ode to musical passion and dedication to vinyl. Made of aged Italian walnut hardwood, the chassis benefits from the quality of such noble material: exceptional elasticity, strength and high density.

External power supply (optional)	PST-10
Finishes	Gold leaf, Italian walnut hardwood, White

- Ultra precise synchronous high-torque 12V motor
- Electronic speed control with fine speed adjustments (pitch control)
- 45mm heavy platter in high-density POM
- Damping design with triple-plinth structure
- Italian walnut, aluminium, s/steel and acrylic
- Rigid turntable design

GIGLIO

Turntable

We believe that every turntable we make has something special that reveals our dedication to traditions, history, and our enthusiasm. Giglio is one of our best creations: our engineers and designers have worked together to achieve the perfect balance between beauty and performance.

External power supply (optional)	PST-10
Finishes	Italian walnut hardwood, Black, White

- Fine speed adjustments (pitch control)
- Electronic speed control for $33^{1/3}$rpm and 45rpm
- 33mm platter in high-density POM
- Damping design with triple-plinth structure
- Italian walnut, aluminium, s/steel and acrylic
- Rigid turntable design

hi-fi+

Jason Kennedy:
The Gold Note is a smooth performer, with an effortless style that makes it easy to forget the mechanics of the process and enjoy the music. There was a real vista of sound that revealed the quality of playing and drew me into the music in no uncertain terms.

PIANOSA

Turntable

The Pianosa offers a unique combination of high-quality materials and refined technical solutions to obtain excellent audio performance, thanks to the sound philosophy experimented with the full range of Gold Note turntables, to our experience and deep knowledge of innovative shapes and precious materials.

External power supply (optional)	PST-10
Finishes	Italian walnut hardwood, Black, White

- Fine speed adjustments (pitch control)
- Electronic speed control for $33^{1/3}$rpm and 45rpm
- 23mm platter in damped Poly-Vinyl
- Damping design with triple-plinth structure
- Luxurious materials
- Rigid turntable design

Alan Sircom:
It is an elegant design with a similarly elegant sound, and it has seductive looks. Add to that the simplicity of set-up and this is a turntable that should get lots of attention. It's easy to use, easy to live with, and easy to love.

VALORE 425 PLUS

Turntable

The Valore 425 Plus is the most complete and musically satisfying turntable of its category, offering unbeatable audio performance and a great musical pleasure. An elegant and modern turntable, handmade in Italy with the finest quality materials. Its name means both “worth” and “value” in Italian and that is exactly what it is: a fantastic turntable that offers all you need to fully enjoy every LP.

External power supply (optional)	PST-10
Finishes	Walnut, Silver foil, Black, Transparent acrylic, White

- Fine speed adjustments (pitch control)
- Electronic speed control for $33^{1/3}$rpm and 45rpm
- Refined plinth design for vibration control
- Rigid turntable design

Just as the deck is perfectly pitched in terms of cartridge matching for the money, it’s also extremely well-matched in terms of the kind of system this turntable is likely to partner.

The new T-5 is a completely new design featuring a 30mm thick HDF lacquered plinth, a precision inverted bearing, a high quality transparent 15mm thick platter, custom ogive anti- vibrations and adjustable feet and our acclaimed B-5 tonearm to offer unbeatable audio performance at a very competitive price. A stylish, contemporary turntable handmade with premium materials, it features a carefully machined plinth optimised for vibration control and damping, a high-precision synchronous motor for smooth and stable rotation, and the $33^{1/3}$rpm and 45rpm manual speed selection.

External power supply (optional)	PST-10
Finishes	Black, White

- High-precision synchronous 12V motor
- High-precision inverted bearing
- Vibration-damping geometry
- New platter design
- Ultra-rigid plinth in HDF
- Handmade in Italy
- Anti-vibrations and adjustable feet
- Rigid turntable design

CARTRIDGES

GIOTTO
MC Low Output Phono Cartridge

Frequency response	10-40000Hz

Frequency response	15-25000Hz
Output level	4mV
Impedance	1000Ω
Suggested load	47kΩ
Tracking weight	2g
Diamond	Conical
Cantilever	Aluminium
Coil wire	Copper
Body	Black POM

PH-1000

Phono stage

The PH-1000 is simply the best phono stage we have ever created: a unique piece of audio engineering designed to be innovative in every possible way and 100% made in Italy. For the first time ever, you will be able to play virtually any record the way it's meant to be thanks to infinite EQ curves with 4 manually adjustable presets plus 36 EQ curves. That's why the PH-1000 is a complete game- changer, opening a new era in vinyl reproduction.

External power supply (optional)	PSU-1250
Valve output stage (optional)	TUBE-1012
Finishes	Black, Gold, Silver

- EQ curves
- Gain, Load and Capacitance fine adjustments
- Mono/Stereo
- Class A output stage
- High-quality connectors
- High-quality analogue components
- Headphone amp with sensitivity selection
- Display for ease of use, SKC (Single Knob Control) and IR remote

PH-1000 TRIO

PH-1000 TRIO, THE ULTIMATE PHONO STAGE

The TRIO setup combines our PH-1000 phono stage with the dedicated PSU external power supply and the TUBE output stage, a multi-chassis phono stage that delivers the utmost quality. These three products can be purchased individually and together act as one becoming the ultimate vinyl reproduction machine.

PH-1000 TRIO PREMIUM

TUBE-1012

PH-10

Phono stage

The PH-10 is an ultra-versatile phono stage that offers unique features, including EQ curves, load and gain adjustments: a fully analogue design, engineered exclusively with the best components to recreate the musical event in the most natural way possible. The user friendly Single Knob Control (SKG), combined with the color display, allows quick adjustments of any function in real-time during music playback.

External power supply (optional)	PSU-10
Finishes	Black, Gold, Silver

- 6 EQ curves
- Gain and Load fine adjustments
- 2 independent RCA inputs
- High-quality analogue components
- Display for ease of use

NEW

PH-5.2

Phono stage

Tailor-made for vinyl enthusiasts, the PH-5.2 boasts a pure Class A analogue signal path, a robust build and intuitive operation. Adjust every single parameter directly via the touchscreen display and an intuitive user interface.
The unit supports both MM and MC cartridges with exceptional versatility, offering a wide selection of gain and load settings.
To ensure absolute fidelity, it features six selectable equalisation curves and ultra-low background noise for an immersive listening experience.
You can enhance the unit by adding the PSX-5.2 external power supply to achieve superior dynamic impact and finer detail.

- 6 EQ curves
- Gain and Load fine adjustments
- 100% analogue audio signal path
- Audiophile connectors
- High-End components
- Ultra-low noise
- TFT colour display with touchscreen interface

External power supply (optional)	PSX-5.2
Finishes	Black

IS-1000 MKII DELUXE

Integrated streaming amplifier

The super integrated IS-1000 MKII Deluxe is the first true All-In-One in the world of the High-End audio, designed to offer a premium audiophile experience. The IS-1000 MKII Deluxe features a massive toroidal transformer driving a powerful Class AB amplifier, an MM/MC phono stage, an audiphile DAC, and a high-resolution streamer to easily stream music from the best music services, such as Tidal (and Tidal Connect), Qobuz, Deezer, vTuner and Spotify. With the dedicated app GN Control (available for iOS and Android) you can fully control the IS-1000 MKII Deluxe and its wide range of digital and analogue inputs and experience the real pleasure of high-definition audio at

Finishes	Black, Gold, Silver

- MM/MC phono stage
- High-End DAC
- Digital and analogue inputs
- Class AB amplifier and massive toroidal power supply
- Plug&Play and easy to use
- Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA , Audirvana and vTuner
- Tidal Connect, Qobuz Connect, Roon Ready
- Wi-Fi, Bluetooth and Airplay 2

IS-10

Integrated streaming amplifier

The IS-10 is our new state-of-the-art integrated streaming amplifier designed for audiophiles. Our expertise in audio technology is seamlessly integrated in a compact All-In-One built around a high-performance DAC to support High-Res music, up to DSD256 and PCM 32/384kHz.
The powerful stereo amplifier delivers 140W on 8Ω driving effortlessly a wide range of loudspeakers, or audiophile headphones thanks to the 6.3mm headphone output and dedicated amplifier with its precision resistor volume control.
Fully Roon Ready, the IS-10 is compatible with all UPnP/DLNA services and Airplay 2, and can be controlled with our GN Control app to stream from Tidal (including Tidal Connect), Qobuz, Deezer, vTuner and Spotify Connect. Add high-definition Bluetooth and firmware updates delivered over the air, and you have a complete source enclosed in a compact-sized ultra-rigid dampened aluminium chassis.

Finishes	Black, Gold, Silver

- High-End DAC
- Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA, Audirvana and vTuner
- Tidal Connect, Qobuz Connect, Roon Ready
- Wi-Fi, Bluetooth and Airplay 2
- Digital and analogue inputs
- High quality headphone output
- Stereo: 2 x 140W on 8Ω
  Mono: 1 x 280W on 8Ω (with PA-10 EVO)

CD-1000 DELUXE DSD

CD Player

A state-of-the-art CD player which integrates both a digital and an analogue stage in an elegant unit. The CD-1000 MKII Deluxe DSD is housed in a beautiful brushed aluminium chassis and made of high quality components, providing great audio performances and versatile functions. It recreates a natural and detailed sound, with surprisingly "analogue" qualities. Features a USB-B port to use the CD player as a pure DAC and supporting up to DSD256.

External power supply (optional)	PSU-1250
Valve output stage (optional)	TUBE-1012
Finishes	Black, Gold, Silver

- Up to DSD256 on the USB-B input
- Ultra-rigid mechanism in aluminium
- Low-jitter clock
- Massive chassis in aluminium
- Digital inputs and outputs
- Optional external tube output stage
- Optional external power supply

CD-1000 TRIO

THE MOST MUSICAL HIGH-END CD PLAYER EVER

The TRIO setup combines our CD player stage with the dedicated PSU external power supply and the TUBE output stage, a multi-chassis CD player that delivers the utmost quality. These three products can be purchased individually and together act as one becoming the ultimate CD reproduction machine.

CD-5.2

CD Player

The CD-5.2 stands out as the premier CD player in its class on the market today. Combining a meticulously precise drive mechanism with a high-definition D/A converter, it ensures flawless tracking accuracy to recover every single detail from your discs. To maximize acoustic performance, the rigid chassis and audio circuits utilize premium audiophile components and a pure analogue signal path to eliminate noise and interference. All the functions are easy to control via the touchscreen or the included remote.
Fully balance, the unit provides both analogue and digital outputs. For further enhancement, adding the PSX-5.2 external power supply unlocks even greater dynamic contrast and finer musical textures.

- High-End CD player
- Digital outputs (Coax and Optical TOS)
- Display with touchscreen interface
- External power supply (optional)
- Stereo RCA unbalanced and XLR balanced analogue outputs

External power supply (optional)	PSX-5.2
Finishes	Black

CD-10

CD Player

Our new integrated CD player is a High-End digital source designed to extract more pleasure out of your CDs. Featuring a precision CD mechanism and high-resolution DAC, it can extract every bit of information from the disc to accurately convert the digital audio into an analogue signal. Both the mechanical chassis and the circuit have been designed to achieve the highest sound quality, eliminating noise and intermodulation. The same principle applies to the discrete power stage, which can be upgraded through the addition of the external power supply PSU-10 EVO to further enhance the purity of the analogue audio signal path. The CD-10 it's easy to install and use thanks to the touchscreen display and multifunction remote control (included), and will become the reference digital source for CD enthusiasts.

External power supply (optional)	PSU-10 EVO
Finishes	Black, Gold, Silver

- High-End CD player
- Digital outputs (Coax and Optical TOS)
- Digital inputs (Coax and Optical TOS)
- High-performance 32-bit DAC
- TFT colour display with touchscreen interface
- External power supply (optional)
- Stereo RCA unbalanced and XLR balanced analogue outputs
- SKC (single Knob Control) technology enables full unit control

HP-10

Headphone Amplifier

The HP-10 is the ultimate headphone amplifier for Head-Fi, offering incredible sound quality, unprecedented features, and extensive connectivity at an unbeatable price point. With a Dual-Mono Class-A fully balanced design, the HP-10 preserves the highest purity of the signal to let you enjoy any headphones available today, easy to match thanks to the array of inputs and power delivery. The audio path is made with the best audio-grade components, and all the settings are applied in real-time in the analogue domain.
A set of unique features makes the HP-10 an incredible audio machine, starting from four adjustable Crossfeed setups for a natural 3D soundstage, Harman Curve equalization for headphone optimization, variable gain, damping factor, and a phase 0/180 switch.
The touchscreen display allows for quick adjustments on the go, and the intuitive menu presents all the info clearly on the colour display. For audiophiles looking at using it as a desktop unit, the HP-10 is available with the optional Bluetooth HD aptX and even with a USB-C input and premium DAC (HP-10 Deluxe).

External power supply (optional)	PSU-10 EVO
Finishes	Black, Gold, Silver

- High-End Headphone Amplifier
- Class-A discrete components with Dual/ Mono design
- 4 Headphone outputs
- 4 Crossfeed options (fully analogue)
- Harman Curve equalisation (fully analogue) TFT colour display with touchscreen interface
- External power supply (optional)
- Stereo RCA unbalanced and XLR balanced analogue outputs and inputs

NEW

HP-5.2

Headphone Amplifier

The HP-5.2 combines breathtaking audio performance and cutting-edge features with versatile connectivity, all at unrivalled value for money. Thanks to its fully balanced Class A Dual-Mono architecture, it guarantees maximum signal fidelity, allowing you to get the very best out of any headphones on the market. Top-quality components and real-time adjustments during music playback.
It is extremely user-friendly thanks to its touchscreen display and intuitive interface, allowing you to manage everything in just a few simple steps. The HP-5.2 offers 3 customisable presets, adjustable gain, damping factor, an HD aptX Bluetooth headphone input, a USB-C input and metadata displayed on-screen.
For even better performance, it can be paired with the PSX-5.2 external power supply.

- High-End Headphone Amplifier
- Class-A discrete components with Dual/ Mono design
- 4 Headphone outputs
- 1 USB-C PCM 48kHz
- Bluetooth 5.2 HD aptX 24-bit
- TFT colour display with touchscreen interface
- External power supply (optional)

External power supply (optional)	PSX-5.2

DS-1000 EVO

Streaming DAC

The DS-1000 EVO is our new generation streaming DAC designed to push the boundaries of digital audio to new heights. It represents the definitive digital audio source for a High-End system.
Featuring a Dual Mono DAC design, leveraging one DAC chipset per channel to deliver the highest audio quality and achieve the best channel separation, crosstalk and dynamics - while the class A discrete component design output stage guarantees outstanding musicality and realism. The latest technology in digital audio also allows extremely high resolution, up to DSD512 and PCM 32bit/384kHz, to enjoy the finest details while streaming from Tidal (& Tidal Connect), Qobuz, Spotify Connect, vTuner, and UPnP/DLNA media servers. The DS-1000 EVO is also Roon Ready and offers Airplay 2 and Bluetooth for extended connectivity. Available in two models - DS-1000 EVO and DS-1000 EVO LINE featuring the integrated class A preamplifier stage and stereo RCA unbalanced and XLR balanced analogue inputs.

External power supply (optional)	PSU-1250
Valve output stage (optional)	TUBE-1012
Finishes	Black, Gold, Silver

- Dual Mono DAC design
- Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA, Audirvana and vTuner
- Tidal Connect, Qobuz Connect, Roon Ready
- Wi-Fi, Bluetooth and Airplay 2
- Digital inputs
- Analogue inputs (optional)
- Up to DSD512 and PCM 32bit/384kHz
- High quality headphone preamp
- Preamplifier with class A discrete components output stage (optional)
- TFT colour display with audio metadata

DS-1000 EVO TRIO

A NEW DAWN FOR THE DIGITAL MUSIC

The TRIO setup combines our DS-1000 EVO streaming DAC with the dedicated PSU external power supply and the TUBE output stage, a multi-chassis streaming DAC that delivers the utmost quality. These three products can be purcha- sed individually and together act as one becoming an outstanding machine able to provide the highest performance in playing digital music.

DS-1000 EVO TRIO PREMIUM
DS-1000 EVO LINE
PSU-1250
TUBE-1012

The new DS-10 EVO is the streaming DAC for the contemporary audiophile, a D/A converter with a cutting-edge streamer, a line preamplifier and a headphone amplifier. In addition to the already complete connectivity, it also features high-definition Bluetooth and the audiophile 6.3mm headphone output. The DS-10 EVO supports high-resolution files, such as MQA, native DSD256, and up to DSD512 when streaming through USB-B.
With the dedicated app GN Control, you can stream easily music from Tidal, Qobuz, Deezer, vTuner and Spotify - or directly from Tidal thanks with Tidal Connect. A fully Roon Ready streamer, the DS-10 EVO is also compatible with all UPnP/DLNA services, and Airplay 2.0.
And it's the only streaming DAC that allows you to manually adjust the behaviour of the DAC with our innovative Chameleon technology to fine tune your system to your favourite genres. It also offers an impressive headphone amplifier that will perfectly match any headphone (from 8Ω to >600Ω). On top of that, the user experience has been improved with a renewed interface and it now allows for firmware updates over the air.
With the additional analogue input (available for the LINE model only) the DS-10 EVO becomes the perfect partner of the PH-10 phono stage and the centrepiece of a modern audiophile system.

External power supply (optional)	PSU-10 EVO

NEW

DS-5.2

Streaming DAC

The DS-5.2 is a compact and versatile digital source, designed and built to deliver an uncompromising listening experience.
The anodised aluminium chassis houses a network streamer, a high-resolution D/A converter, a line preamplifier and a headphone amplifier with a 6.3mm jack. Manage all your digital music instantly, controlling every function via the colour touchscreen display or the Gold Note Control app. The DS-5.2 features digital inputs and outputs, such as RCA, XLR, USB-C and HDMI eARC connectivity for maximum audio quality and versatility.
Based on the high performing AKM AK4493 DAC chipset, it is capable of handling audio files up to PCM 32bit/768kHz and DSD512.
The DS-5.2 features LAN, Wi-Fi and Bluetooth 5.2, ensuring exceptional dynamics and an incredibly natural sound.
To further enhance performance, it can be paired with the PSX-5.2 external power supply.

- Integrated line preamplifier
- Headphone output
- Digital and analogue inputs
- Plug&Play and easy to use
- Wi-Fi, Bluetooth 5.2 and Airplay
- Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA, Audirvana and vTuner

P-1000 MKII

Preamplifier

Designed for High-End audio systems, the P-1000 MkII is our class A line preamplifier powered by the new proprietary Six Gain Stage Ultra-Balanced design, featuring relays and optical ALPS Encoder volume control.
The P-1000 MkII belongs to a new era of electronics. Top performances and advanced technology combined to offer an outstanding musical experience, with incredibly low distortion and extended linear bandwidth.

External power supply (optional)	PSU-1250 / PSU-1000
Valve output stage (optional)	TUBE-1012 / TUBE-1006
Finishes	Black, Gold, Silver

- Class A design
- 8 analogue inputs
- High-quality analogue components
- Display for ease of use
- Mono/Stereo with Phase inversion
- 6 gain stages

6Moons:
Gold Note's fully balanced preamplifier showed itself as a very high-resolution essentially neutral performer whose key strengths were tremendous depth of field, masterful untanglement of complex interludes and, directly related, very high magnification powers of subtle detail.

P-1000 TRIO

AN OUTSTANDING MUSICAL EXPERIENCE

The TRIO setup combines our P-1000 MkII preamplifier with the dedicated PSU external power supply and the TUBE output stage, a multi-chassis phono stage that delivers the utmost quality. These three products can be purchased individually and together act as one delivering an outstanding musical experience.

PA-1175 MKII

Power amplifier

Class AB power amplifier with a selectable damping factor for easy matching with a wide variety of loudspeakers.
PA-1175 MkII features proprietary optical BIAS to deliver high power with ultra-low distortion, as well as optical decoupling to overcome the downgrading solutions of traditional electronics, assuring the highest level of electrical protection and unbeatable performance.
Thanks to its BTL technology, it's easy to use in stereo and mono mode.

Finishes	Black, Gold, Silver

- Class AB design
- Stereo/Mono
- BTL technology
- 4 pairs of power transistors
- Damping factor selection

6Moons:
For hifi hardware, I'd now have this company's first new stereo amp in two decades. It's called PA-1175 where 'PA' is short for power amp, not public address system. For the complete experience, one would obviously want an entire Gold Note system. It's something this company actually do offer.

PA-10 EVO

Power amplifier

Musically engaging and controlled, the PA-10 EVO is a compact power amplifier designed for modern High-End audio systems and able to drive any loudspeaker with power and control.
You can use one in stereo or two as monoblocks to get the best audio performance. Despite the size, it's extremely capable and efficient, delivering 140W of power in stereo (8Ω) and 280W in mono (8Ω).
Carefully designed with select components, each unit is meticulously assembled and tested by hand.

Finishes	Black, Gold, Silver

- Balanced and unbalanced inputs
- Fully balanced power amplifier
- Stereo/Mono option
- Exclusive adjustable Damping Factor
- Automatic ON/OFF Trigger Control IN/OUT
- Stereo: 2 x 140W on 8Ω
  Mono: 1 x 280W on 8Ω

The XS-85 is our masterpiece: a full-range, 3-way floor standing loudspeaker with rear double bass reflex design entirely shaped according to the iconic Gold Note design. It delivers state-of-the- art performances, guaranteed by high-quality components combined with elegant cabinets. Extremely versatile, the XS- 85 is capable of reproducing the most challenging musical passages impressively and realistically, with crystal clear details.

Finishes	Walnut glossy, Black glossy, Gold leaf

- 3-way, full-range speaker
- Multi-port bass reflex
- Superior crossover circuitry design
- High-quality components
- Premium materials and luxurious finishes
- Completely made in Italy

High & Style:
As a musician, I especially appreciate a high level of musicality of the performance with a certain dose of "playfulness". Plus the breathtaking Bella Figura!

A6 EVO II

Loudspeakers

Featuring a totally new look on the front panel, the A6 EVO II, with its distinctive diamond-shaped body, is designed to control vibrations the best. The combination of its unique shape and the cabinet creates an ultra-rigid structure that enhances power control and provides a greater dynamic response, maintaining ultra-clean and powerful high frequencies.

Finishes	Walnut glossy, Walnut matt

- 3-way, full-range speaker
- Multi-port bass reflex
- Premium materials and luxurious finishes
- Completely made in Italy

6Moons:
It's lovely when a concept is so clear about what it wants, then so clear about giving us just that, exactly. Being rather handsome to boot then comes as a bonus.

A3 EVO II

Loudspeakers

This elegant 2-way bass reflex bookshelf loudspeaker sweeps audiophiles off their feet despite its very compact size. The A3 EVO II's stunning diamond-shaped cabinet is exclusively handcrafted in Italy by the best wood-makers to achieve an ultra-rigid structure and the truly best audio quality. Exceptional components, including a silk dome tweeter, ensure an extended frequency response.

- 2-way bookshelf speaker with bass reflex
- Premium materials and luxurious finishes
- Completely made in Italy

Finishes	Walnut glossy, Walnut matt
Stand	Painted MDF and Aluminium
	290 W x 760 H x 440 D mm

HiFi+:
This gorgeous little pair of speakers is like a tuned Fiat Abarth. More sound and fun than you'd ever think could come from that small shape.

NEW

DIANA I

Loudspeakers

Featuring an innovative design, the Diana range of loudspeakers represents modularity and performance. Combining new shapes, materials and technology, these loudspeakers deliver extraordinary sound quality and are a statement of quality craftsmanship.
The Diana I is a compact bookshelf with a 2-driver 2-way design with a 1" silk dome tweeter and a 6.5" glass fibre mid-woofer.
The rear bass reflex port allows for deep low frequency extension despite the size, and the tweeter is equipped with a phaser that enhances the off-axis response.
The cabinet is fine tuned with 2 mechanical resonators to cancel vibration out on the mid-woofer axis, and is wrapped with a special performance fabric.

Finishes	Rebel Black, Artic Silver
Diana Stand	High-density MDF Acoustically transparent fabric 210 W x 540 H x 320 D mm

- 2-way design with rear bass reflex
- 1" silk dome tweeter
- 6.5"glass fibre mid-woofer
- Luxurious fabric for high-performance application
- Completely made in Italy

NEW

DIANA II

Loudspeakers

Featuring an innovative design, the Diana range of loudspeakers represents modularity and performance. Combining new shapes, materials and technology, these loudspeakers deliver extraordinary sound quality and are a statement of quality craftsmanship.
The Diana II is a bookshelf with a 3-driver 2-way design with a 1" silk dome tweeter and a 6.5" treated paper mid-woofer arranged in a symmetric T/M configuration.
The rear bass reflex port allows for deep low frequency extension and the tweeter is equipped with a phaser to enhance the off-axis response. The cabinet is fine tuned with 4 mechanical resonators to cancel vibration out on the mid-woofer axis, and is wrapped with a special performance fabric.

Finishes	Rebel Black, Artic Silver
Diana Stand	High-density MDF Acoustically transparent fabric 210 W x 540 H x 320 D mm

- 2-way design with rear bass reflex
- Symmetric configuration T/M
- 1" silk dome tweeter
- 2x 6.5" treated paper mid-woofer
- Luxurious fabric for high-performance application
- Completely made in Italy

NEW

DIANA III-F

Loudspeakers

Featuring an innovative design, the Diana range of loudspeakers represents modularity and performance. Combining new shapes, materials and technology, these loudspeakers deliver extraordinary sound quality and are a statement of quality craftsmanship.
Diana III-F is the innovative stand for this range of loudspeakers that works as sub-woofer to extend the frequency response down to 38 Hz. The Diana III-F leverages a refined crossover developed to work in series with both Diana I and Diana II, turning them into a floor standing design. The 6.5" driver made of glass fibre is down-firing and matched with a front-facing reflex port to deliver controlled, rich and powerful base. The Diana III-F sits on 4 spike feet with adjustable height and comes with our special Diana Bridge, our proprietary jumper to connect it to the other modules.

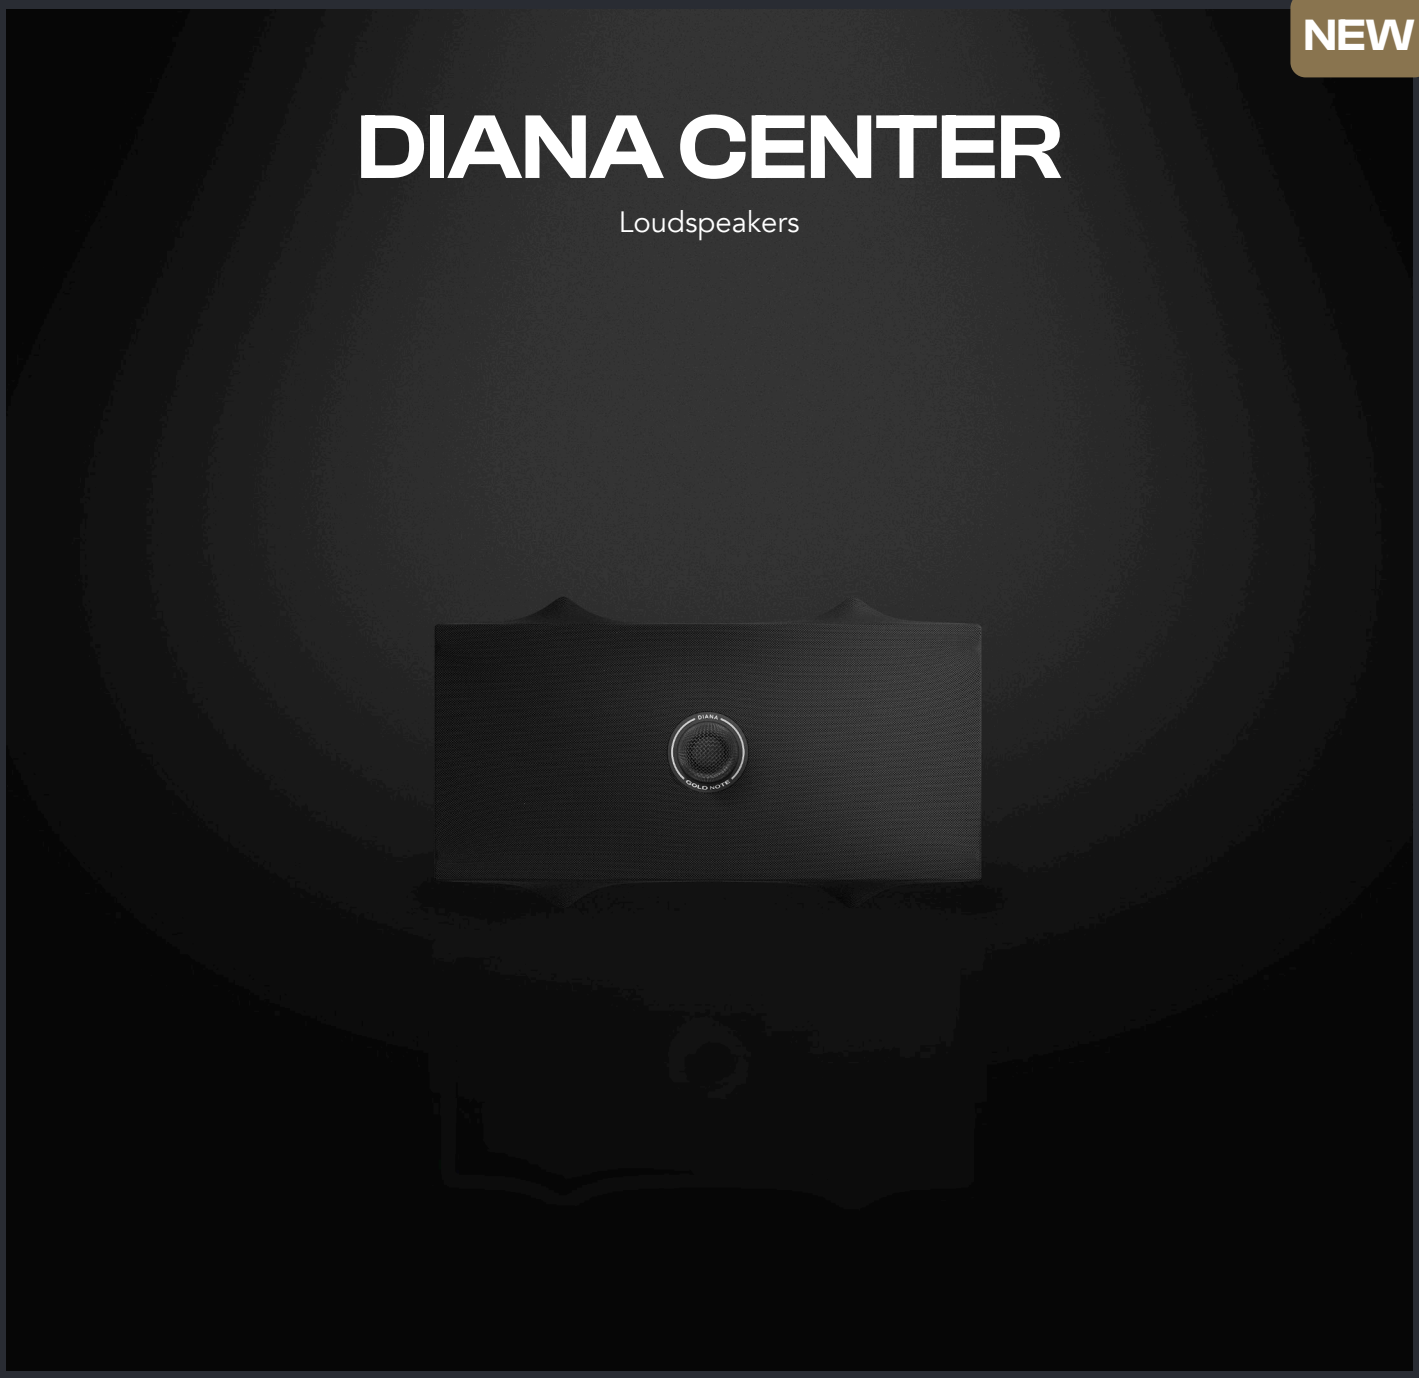

Finishes	Black Matt

- Passive subwoofer with bass reflex
- 6.5"glass fibre sub-woofer
- Elegant black matt finish
- Completely made in Italy

NEW

DIANA CENTER

Loudspeakers

Featuring an innovative design, the Diana range of loudspeakers represents modularity and performance. Combining new shapes, materials and technology, these loudspeakers deliver extraordinary sound quality and are a statement of quality craftsmanship.
Diana Center is the centre channel developed to complete the range and allow audiophile quality sound in HT systems. The Diana Center is a 2-way sealed design with a 1" silk dome tweeter and two 6.5" treated paper mid-woofers, capable of an extraordinary wide frequency response and easy to drive thanks to the high sensitivity of 91 dB/SPL. The tweeter is equipped with a phaser to enhance the off-axis response. The cabinet is fine tuned with 4 mechanical resonators to cancel vibration out on the midwoofer axis, and is wrapped with a special performance fabric.

Finishes	Rebel Black, Artic Silver

- 2-way center channel sealed design
- 1" silk dome tweeter
- 2x 6.5" treated paper mid-woofer
- Luxurious fabric for high-performance application
- Completely made in Italy
